Please note that the export of any night scope fitted with a Generation 2/2+/SuperGen/XD4/HyperGen or Generation 3 intensifier tube is strictly controlled by ITAR regulations. All of these systems are also subject to UK Government Export Licencing Regulations. A licence will need to be obtained prior to the export, even temporarily, from the UK. It is the responsibility of the exporter, whether it be a company or an individual, to ensure that such a licence is obtained. Failure to comply is a criminal offence.
